Infrastructure funds are apportioned at the state level based on the percentage of shared customers served in each local workforce area. State Partners will establish a methodology that will ensure costs are allowable, reasonable, necessary and allocable. As appropriate, State Partners will enter into Inter-agency Service Agreements (ISAs) or Contracts with the MassHire Department of Career Services (MDCS), as the designated State Workforce Agency (SWA), to issue the local allocations. Local Boards will ensure all allocations are incorporated into the local integrated budget during the annual planning process. MDCS will monitor the spending of all shared and infrastructure costs and Local partners agree to meet regularly to discuss integrated service delivery strategies and the shared and infrastructure funds needed to actualize services. On an annual basis, local partners will provide suggestions and recommendations to state level partners for adjustments to shared and

infrastructure funds allocated. The utilization of infrastructure funds will be reviewed on a quarterly basis. Staff time and in-kind resources attributed to shared costs will be reviewed annually for necessary adjustments

Data Sharing for Integrated Service Delivery for Shared Customers:

Subject to applicable legal constraints, including but not necessarily limited to those contained in G. L. 151A and 20 C.F.R. Pt. 603, the parties of this MOU agree to seek increased sharing of data with a view to improving the quality of service-delivery to both job-seekers and business-customers. The Party whose data is requested to be shared shall be the judge, in its sole discretion, of the legal constraints governing whether and how its data may be shared. The parties of this MOU understand that a shared data system is being designed at the state level and will fully support the development and implementation of a state-level data system, subject to the foregoing limitations.
